

# Risk Management

Risk	Impact	Probability	Strategy
Prices change due to inflation rates	Moderate	Very Likely	Transfer to more than one supplier
Prices change due to currency value	Major	Very Likely	Transfer to national supplier to avoid using dollar as currency
Delay in release	Moderate	unlikely	Avoid this by increasing the number of developers. And try to negotiate with customers for the best times to release
Issues with customers	Major	likely	Mitigate by automating testcases and have more test cases
Natural disaster	Major	likely	Avoid by trying to have more online stores
Team member resigns	Minor	unlikely	Mitigate by matching the offer received by employee or having enough notice periods
